# InBody170

# Your smart healthcare partner

Affordable Price, Premium Performance, Anytime, Anywhere

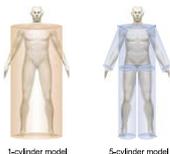

## Compact InBody available in anytime anywhere!

-  Equipped with thermal printer which offers plentiful results
-  Lighter weight will help easy move.
-  The compact size that can be without special limit
-  User-friendly designed interface
-  Quick measurement in 30 seconds
-  Voice Guidance
-  Classy & Stylish design

## What sets the InBody apart in BIA?

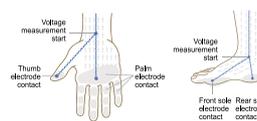

### Direct Segmental Impedance Measurement (DSM-BIA)

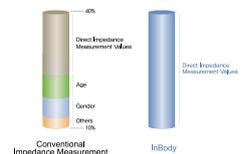

### Precise measurement of the trunk part

### Tetrapolar 8-point Tactile Electrode System that allows for high reproducibility

### Precise measurements for any body type

## Body composition is important to understand for anyone who wants to lose weight in a healthy manner.

Diet alone can lead to loss of water and lean weight (both of which are vital for healthy functions within the body). The InBody allows a person to monitor weight loss in a way that ensures fat loss. By keeping track not only of total weight loss, but of body composition as well, the ideal body type (with a high amount of lean mass and a low amount of fat mass) can be achieved.

## InBody 170 provides plentiful results with thermal output

### Personal Information

The examinee's ID, gender, age, height, weight, exam date and time are displayed here.

### Body Composition

Bar graphs and values for Weight, Muscle Mass (Skeletal Muscle) and Body Fat Mass are displayed here. You can also check TBW (The total volume of water in the body) and FFM (Fat Free Mass refers to the components of body weight with the exception of body fat mass).

### Obesity Diagnosis

This enables examinee's to check BMI, the classical method for obesity diagnosis, percentage of body fat, waist-hip ratio and visceral fat (level) all at once.

### Segmental Lean

'Segmental Lean' shows segmental lean mass and its overall evaluation.

### Segmental Fat

'Segmental Fat' shows segmental fat mass, percentage of body fat and its overall evaluation.

### Muscle - Fat Control

The (+) and (-) signs indicate an increase or decrease in the amount of control.

### Fitness Score

The Fitness Score is offered in numeric value to help people remember the status of their body composition easily.

### Body Composition History

Body Composition History offers up to recent 10 monitoring data.

### Impedance

The InBody170 provides impedance of each segment at multiple frequencies.

### Company Information

**InBody170** 03/03/11 11:04

ID : 654

Gender: Male Age : 31

Height : 175.0cm Weight : 100.2kg

#### Body Composition

**Weight** 100.2 kg (57.3~77.5)

**Muscle** 38.2 kg (28.8~35.2)

**Fat** 33.6 kg (8.1~16.2)

**TBW** 48.8 ℓ (37.9~46.3)

**FFM** 66.6 kg (51.6~63.0)

#### Obesity Diagnosis

**BMI** 32.7 kg/m<sup>2</sup> (18.5~25.0)

**PBF** 33.5 % (10.0~20.0)

**WHR** 0.95 (0.80~0.90)

**Visceral Fat** 14 level (Under 10)

**BMR** 1809 Kcal (2026~2394)

#### Segmental Lean

	Lean Mass(kg)	Evaluation
<b>Right Arm</b>	3.99	Over
<b>Left Arm</b>	4.04	Over
<b>Trunk</b>	30.7	Normal
<b>Right Leg</b>	10.60	Normal
<b>Left Leg</b>	10.51	Normal

#### Segmental Fat

	PBF(%)	Fat Mass(kg)	Evaluation
<b>Right Arm</b>	37.1	2.5	Over
<b>Left Arm</b>	36.5	2.5	Over
<b>Trunk</b>	35.6	18.0	Over
<b>Right Leg</b>	29.1	4.6	Over
<b>Left Leg</b>	29.0	4.5	Over

\* Segmental Fat is estimated.

#### Muscle - Fat Control

**Muscle** 0.0 kg **Fat** -21.8 kg

**Fitness Score** 68 points

#### Body Composition History

Date	Weight	Muscle	Fat
03/03/11	100.2	38.2	33.6

#### Impedance

	RA	LA	TR	RL	LL
20	273.8	272.1	25.9	220.2	222.1
100	237.8	236.0	21.8	191.3	194.0
